## OUR EXPERTISE

We've been implementing JD Edwards since the very beginning, and with the largest dedicated JD Edwards team in the business, no one has more experience. Our consultants combine the very best in Oracle wisdom with hands-on, deep industry knowledge to keep your enterprise moving forward.

## PROVIDING BREAKTHROUGH VALUE

JD Edwards' broad platform offers a full spectrum of integration needs to other Oracle applications, third-party solutions and Oracle Cloud ERP. Our Cloud integration experience benefits your company's co-exist strategy by creating a comprehensive, contemporary system that combines JD Edwards with complementary Cloud components for procurement, project execution and expense management. CSS is a Cloud go-to partner and one of the first in the Oracle Partner Network to implement and integrate Cloud solutions with JD Edwards.

## SCHEDULED UPGRADES & SUPPORT

We've been implementing JD Edwards since the very beginning, and with the largest dedicated JD Edwards team in the business, no one has more experience. Our consultants combine the very best in Oracle wisdom with hands-on, deep industry knowledge to keep your enterprise moving forward. With an average of 20 years technical and industry experience in Oracle implementation and comprehensive solutions integration, our consultants provide your company with on-call, senior-level expertise.

CSS offers implementation approaches designed to fit your project needs. Through our integrated Change Management-Project Implementation methodology, we understand how to address your specific business challenges, and successfully deliver better solutions that address the unique dynamics of your organization. Whether your upgrade is considered "big" or "small", accelerated or multi-phased, CSS tailors the upgrade approach to meet your specific needs. This optimizes your business value, and ensures you're using the solution to its fullest. CSS also offers innovative Cloud co-existence options for enterprises ready to take that step, with the same successful Change Management approach.

- Low Business Overhead – Up to 30% decrease in overhead costs
- Knowledgeable & Flexible – Expert technical and functional resources when you need them
- Complete Continuity – Dedicated Cloud Support Specialists and Delivery Management assigned to your company
- Remote & Responsive – On-call support available 24/7

We've been very pleased with CSS' skill and expertise on this project.

Their knowledge base with the solution and in the construction industry is unlike any other business partner we've encountered.
